Benefits for Your Organization

ACCURACY

The WISard™ data collection terminal has built-in alerts to assist WIS International auditors to eliminate common errors and provide more accurate results. Customers benefit from WIS International teams' attention to detail, audit trail and customized processes.

TECHNOLOGY

The WISard™ Smart Data Capture terminal allows for single-handed operations which facilitate a smooth and accurate process for your next project. WIS International routinely creates customized proprietary software programs to meet our clients' needs.

CUSTOMIZED REPORTING

Your company and your data are unique. At WIS International we think your reports should be too. Each of our clients has the option to receive our out-of-the box reports as well customize reports that suit the needs of changing environment of their business. All of our reporting solutions are available on-demand via the secure WIS International customer Web portal.

REAL-TIME AUDITING

At times it can be difficult to track real-time inventory accuracy with paper reports. The real-time electronic audit capabilities of the WISard 750 Smart Data Capture terminal streamline the inventory count process. Now store management teams have the ability to review inventory counts on demand.

WEB-BASED COMMUNICATION AND TRAINING EXPERTISE

WIS International provides consistent communication, training and specific project instructions. Employees can easily access schedules, planograms, training and reporting requirements via the Internet. Our customers can track progress of assignments with performance reporting, on-demand accessibility via the secure WIS International customer Web portal.

SKILLED WORKFORCE

WIS International continuously trains its thousands of direct employees with the latest industry and unique client expertise so that your employees can concentrate on running their business at hand. With more than 12,000 trained data collection specialists available for your next project, you can eliminate the hassle of hiring and training personnel to perform inventory count—just rely on WIS International instead.

INDEPENDENT VERIFICATION

You'll have the confidence that comes from an unbiased, independent third party service provider. With an WIS International inventory supervisor monitoring the checks and balances and managing the process our customers rest assured knowing their inventory counts were performed with true third party objectivity.

MERCHANDISING SPECIALISTS

A year-round workforce that specializes in merchandising projects provides efficiency for your projects. Familiarity with the retail environment and manufacturer performance standards results in a job well done. With a pool of 12,000 employees, drawing from more than 200 offices, WIS International has the capacity to quickly perform projects across a large number of retail locations when your need is greatest.
