PARTNER SYSTEM RENTAL™ INVENTORY SERVICES

Partner System Rental is a program developed by WIS International to assist businesses like yours with their inventory. It combines the benefit of utilizing your employees to perform counts with WIS International equipment and an experienced, independent 3rd party WIS Inventory Manager to lead the process. The WIS inventory manager will ensure your store employees receive the training, assistance and all technical support they need to conduct an accurate and efficient inventory.

While your employees get daily experience that makes them experts in areas of merchandising and customer service, they probably aren't experienced in taking an accurate inventory. If you are relying on your employees to be the experts in taking inventory once or twice a year, you may not have the checks and balances in place to ensure the most accurate count due to:

- Inexperience using rental equipment
- Poor procedural compliance resulting in missed or duplicate counts
- Lack of independent, third party objectivity and auditing
- Misclassification of merchandise
- Improper application of mark-downs

Benefits to Your Business

Experienced Managers – The Partner System Rental program includes an experienced inventory manager to supervise the inventory. No need for your staff to learn inventory management.

Equipment Transportation – We'll bring the requested number of counting terminals, along with all supplies needed, to every inventory. Once the inventory is complete, we'll take everything with us. Store personnel need not worry how equipment will get across town for another inventory. Leave it up to us!

Standardized Procedures – All inventories will follow a standardized count flow plan and your employees will be trained to use the rental equipment efficiently and effectively.

Employee Supervision and Motivation – Our managers know how to motivate your employees to meet agreed on expectations and provide feedback to counters on their performance (count per hour, accuracy). The WIS Inventory Manager can also verify count accuracy through sample recounts.

Inventory Experience – Performing more than 200,000 inventories a year gives WIS International a wealth of experience that you can apply to your next warehouse or distribution center inventory
